TECHNICAL SKILLS

Languages & Libraries: Python, JavaScript, HTML, CSS, NLP

Database: MySQL

Tools/Frameworks: Django, Streamlit, Git, GitHub, VS Code, PyCharm, Jupyter Notebook

Core Concepts: Machine Learning(Basics), DSA (Basics)

SUMMARY

Self-motivated and detail-oriented computer science graduate with strong foundations in Python, machine learning, web development, and software design. Experienced in building real-world projects using modern tools and frameworks such as Django, Streamlit, and MySQL. Strong academic record with a passion for creating impactful software solutions.

EDUCATION

Master of Computer Applications (MCA)

Silver Oak University, Ahmedabad

July 2024 – June 2026 | CGPA: 9.65/10

Bachelor of Computer Applications (BCA)

Silver Oak University, Ahmedabad

September 2021 – June 2024 | CGPA: 9.05/10

PROJECT EXPERIENCE

AI-Powered Healthcare Recommendation System

Tools: Python, Machine Learning, Django, HTML/CSS

- Built a symptom-based disease prediction system using machine learning algorithms.
- Integrated with Django backend to deliver real-time predictions and personalized recommendations.
- Features: Patient login, medication suggestions, precautions, workout and diet plans.

Content-Based Movie Recommendation System

Tools: Python, NLP, SVM, Streamlit

- Developed an ML-based recommender that uses cosine similarity on movie descriptions.
- Designed an interactive UI using Streamlit for real-time user input and suggestions.
